

# Year N

## Spring Term

This term we will be exploring life cycles and the world around us. We will talk about people in our community and people who help us. We will observe the environment as winter turns into spring.

### Reading and Phonics

We will be using the Little Wandle foundations for phonics and rhyme time.

We enjoy listening to stories and retelling them.

### Writing

We will be mark making in the environment and assigning meaning to our marks.

### Maths

We will be singing lots of number rhymes and songs as well as counting and pattern spotting. We are beginning to recognise numbers.

### Knowledge and Understanding of the World

We will be beginning to understand the need to respect the natural world. We will learn that there are different countries.

### Physical Development

We will be developing core strength, balance and coordination through outdoor play, bikes, apparatus, and throwing and catching balls.

### Personal, Social and Emotional

We will continue to practise turn taking and sharing. We are developing our self-help skills. We always say please and thank-you.

### Expressive Art and Design

We will be thinking about loud and quiet sounds when playing and singing. We will be choosing colours for a purpose.

### Communication and Language

We will enjoy sharing books and join in conversations about stories.

### Key dates:

'Stay and Play' sessions dates to be confirmed.

### Home learning:

- Please share books with your child as often as possible.
- Take opportunities to count, for example toys, fingers etc.
